

Quickly and easily install refrigerators, ice makers, humidifiers, water filters, and evaporative coolers to an existing water supply with the EZ Quick family of quick-connect water installation products.

### The EZ Quick Family Is:

- **Quick and Easy to Install**
  - Patented “tool-less” quick-connect technology
  - No special tools required /optional tube cutter available
  - No soldering required
  - No need to let the water dry before connecting
- **Highly Reliable and Safe**
  - Will not corrode
  - 1/4 turn shut-off works when you need it to
  - Leak resistant design
  - Kink resistant PEX
  - Superior flow to saddle valves
- **Flexible**
  - 3 kit options and 3 individual valves available
  - Works with various materials – copper, PEX, CPVC
  - Attaches to existing plumbing
- **Certified to NSF/ANSI 61**

### Product Specifications:

**Temperature Rating:** 180°F

**Pressure Rating:** 160psi @ 73°F  
100psi @ 180°F
